‘the best way to predict the future is to design it’
Richard Buckminster Fuller (1895 - 1983)

©2019 Tom Rucker Fine Jewellery London

Taking inspiration from the concept of Buckminster Fuller's Geodesic Domes, he has developed an intricate laser welding technique called 'GEO.2'.

Tom combines this unique technique with his high-level goldsmithing skills to create bespoke precious pieces for international clientele.

pendant GEO.ULYSSES - pink HYDERIAN® Platinum 955
a significant GIA cert. Fancy Light Brown type IIa - SI1 diamond brilliant-cut 7.05 cts

Only less than 2% of all gem diamonds are certified type IIa. They are the most chemically pure type of diamond with an exceptional optical transparency. Among famous gem diamonds, the Cullinan I and the Koh-i-noor are examples of type IIa.
